1. Introduction

this project involved designing and developing a responsive multi-page e-commerce website called **Wisdom ChromeHeart Store**. The website demonstrates practical web development skills using HTML5, CSS3, and JavaScript. The project focuses on creating a user-friendly interface with consistent navigation, attractive layouts, responsive design, and interactive features suitable for an online fashion store.

The website allows users to explore products, learn about the business, view available services, and contact the store through a professional contact form.

2. Project Objectives

The main objectives of this project were to:

- Design a professional multi-page e-commerce website.
 - Apply HTML5 semantic elements to structure web pages.
 - Use CSS3 to create attractive and responsive page layouts.
 - Implement JavaScript to provide interactive website features.
 - Develop a responsive navigation system for all pages.
 - Display products using a card-based layout.
 - Create a functional contact form.
 - Demonstrate good website organization using folders for HTML, CSS, JavaScript, and images.
-

3. Website Design

The website follows a luxury black-and-white color theme inspired by premium fashion brands. A consistent navigation bar appears on every page, allowing users to move easily throughout the website.

The website contains the following pages:

- Home Page
- About Us
- Products
- Services
- Contact Us

Each page maintains a consistent design, typography, spacing, and footer to provide a professional appearance.

Key design features include:

- Hero banner
 - Product cards
 - Responsive layout
 - Hover animations
 - Premium typography
 - Font Awesome icons
 - Attractive buttons
 - Footer with social media links
-

4. Technologies Used

HTML5

HTML5 was used to structure all web pages using semantic elements such as:

- Header
- Navigation
- Section
- Footer
- Forms
- Images
- Hyperlinks
- Lists

CSS3

CSS3 was used to improve the appearance of the website through:

- Flexbox

- CSS Grid
- Responsive layouts
- Hover effects
- Animations
- Media Queries
- Custom fonts
- Color styling

JavaScript

JavaScript was used to improve interactivity by implementing:

- Welcome message
- Newsletter subscription
- Contact form validation
- Shopping cart simulation
- Dark mode
- Back-to-top button
- Live date and time display

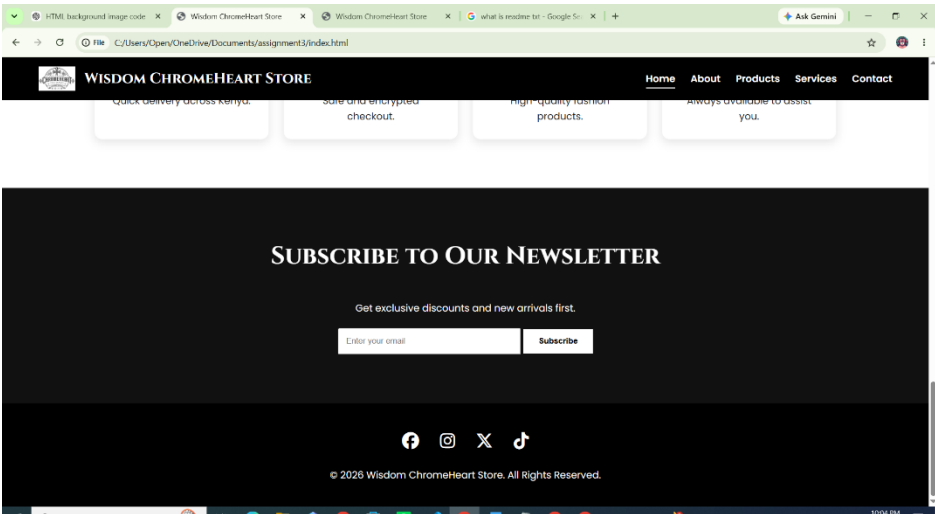

5. Website Pages

Home Page

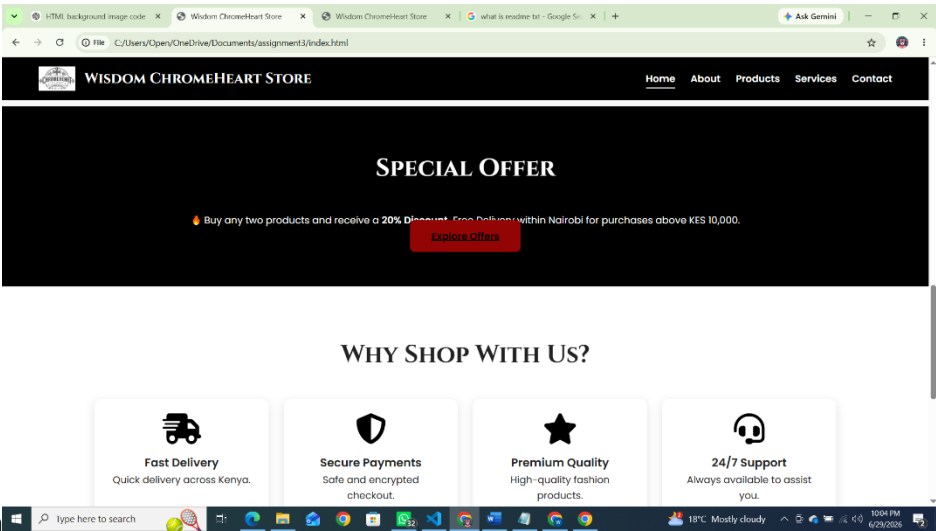

The Home Page introduces visitors to Wisdom ChromeHeart Store and includes:

- Company logo
- Navigation menu
- Hero image
- Welcome message
- Featured products

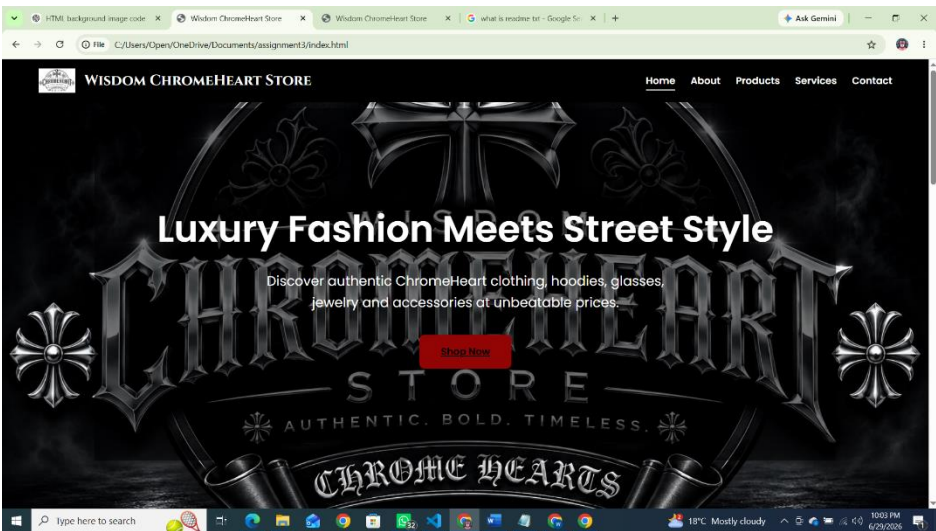

- Promotional offers

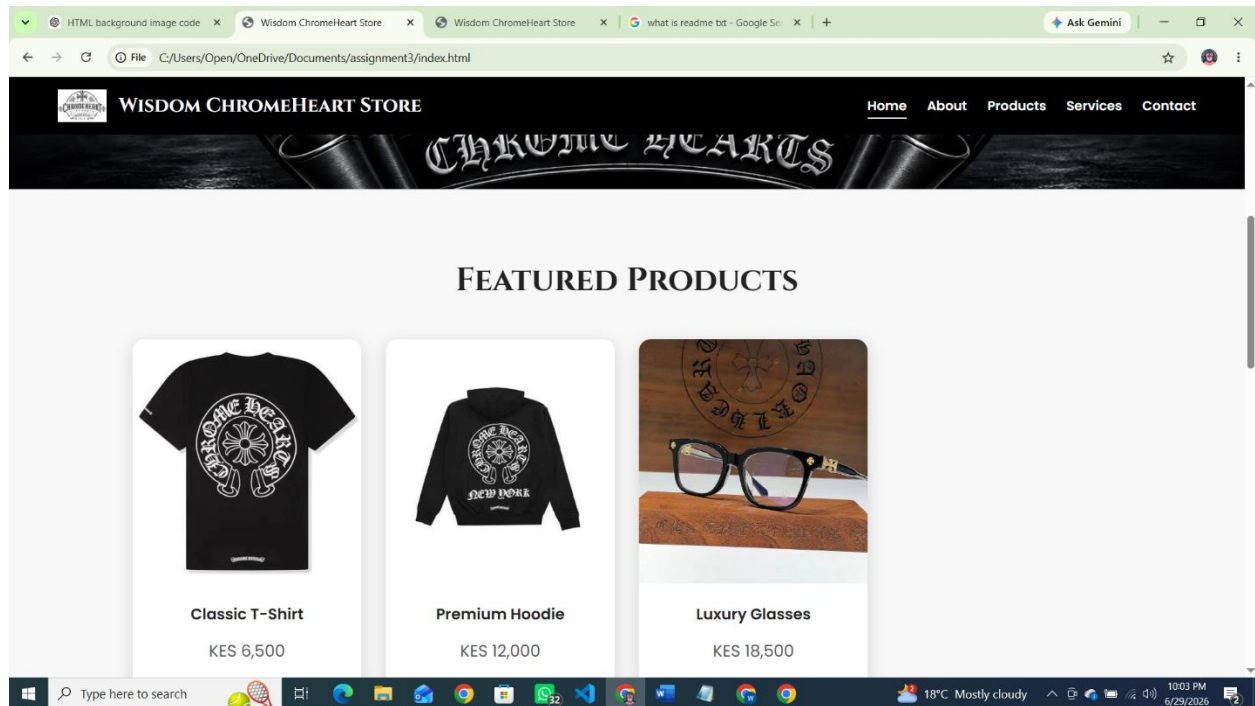

- Newsletter

section

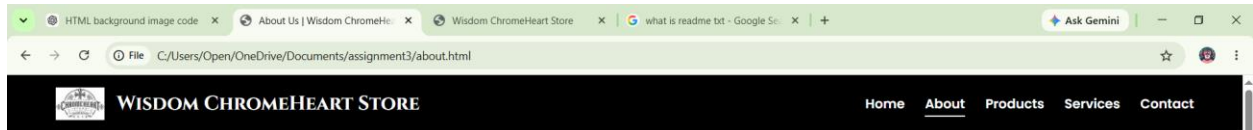

- Footer

About Us Page

The About page explains the company's:

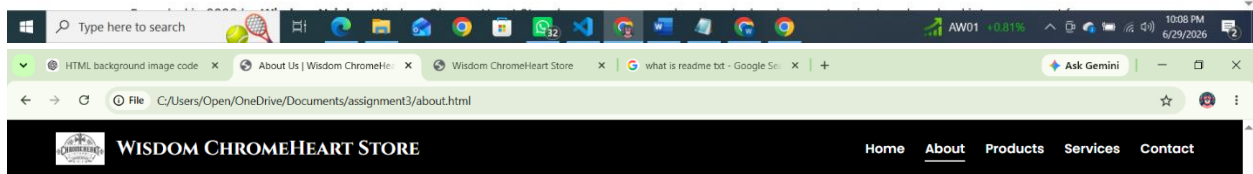

- History
- Vision
- Mission
- Core values
- Objectives
- Achievements
- Team members

ABOUT WISDOM CHROMEHEART STORE

Wisdom ChromeHeart Store is a modern online fashion store inspired by the luxury craftsmanship and bold streetwear style associated with Chrome Hearts. Our goal is to provide customers with premium-quality fashion products, outstanding customer service, and a secure online shopping experience. We combine timeless designs with contemporary fashion trends to serve customers across Kenya and beyond.

OUR HISTORY

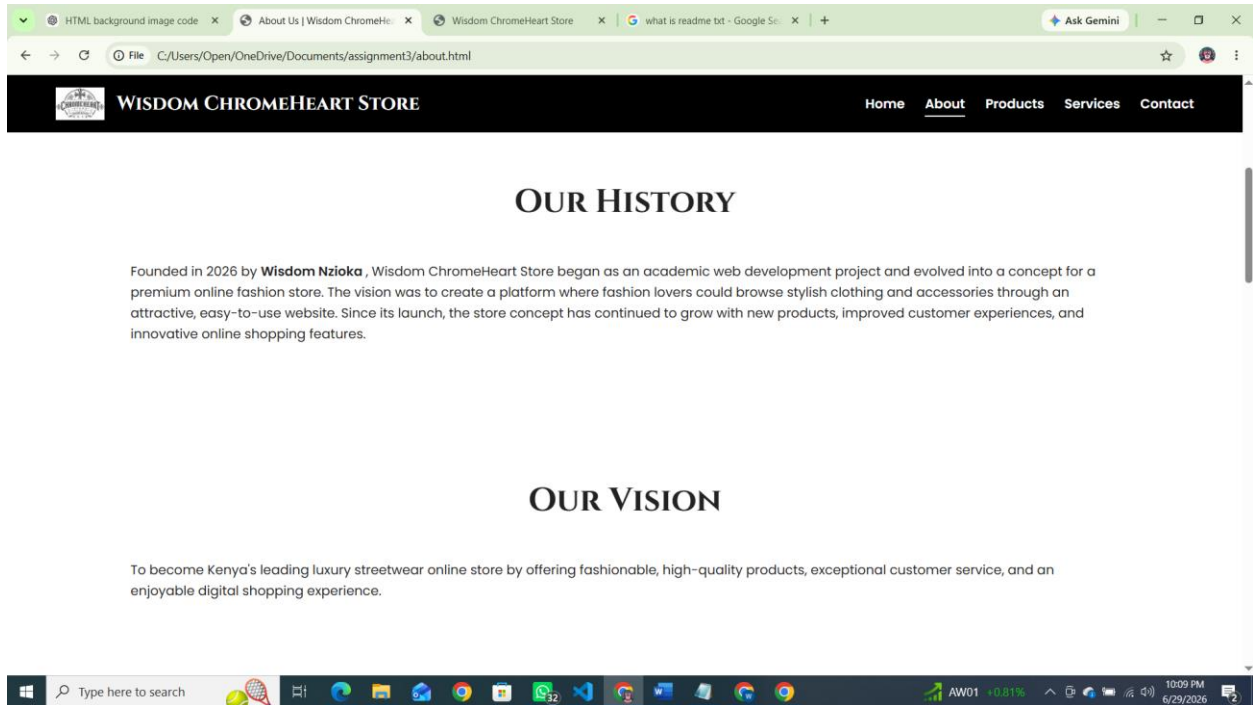

OUR VISION

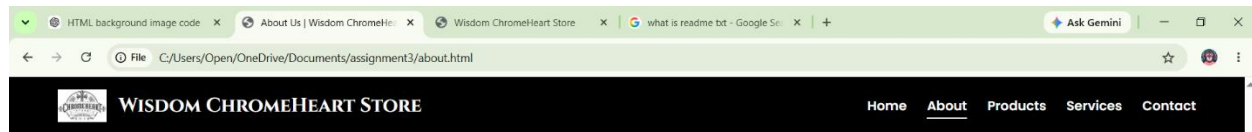

To become Kenya's leading luxury streetwear online store by offering fashionable, high-quality products, exceptional customer service, and an enjoyable digital shopping experience.

OUR MISSION

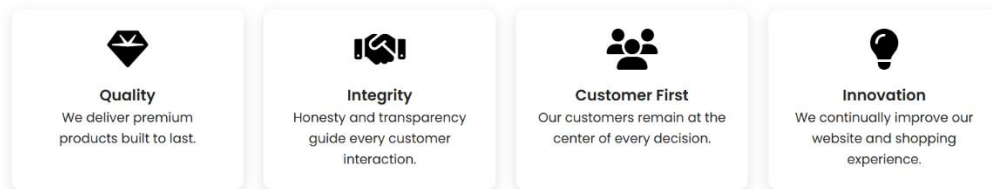

Our mission is to provide premium fashion products that combine quality, creativity, and affordability while delivering excellent customer satisfaction through innovation, integrity, and reliable service.

6. Responsive Design

The website was designed to function correctly on different screen sizes including desktop computers, tablets, and smartphones.

Responsive features include:

- Flexible layouts
- Responsive images
- CSS Media Queries
- Adjustable navigation
- Responsive product cards

These techniques ensure that users enjoy a consistent experience regardless of the device they use.

7. JavaScript Features

The website includes several interactive features:

- Newsletter subscription confirmation
- Contact form validation

- Shopping cart simulation
- Dark mode
- Back-to-top button
- Live clock and date
- Product search support
- Image slider support

These features improve usability and create a more engaging shopping experience.

8. Challenges Encountered

During the development of the project, several challenges were experienced, including:

- Linking multiple web pages correctly.
 - Organizing project folders.
 - Styling pages consistently.
 - Ensuring responsive layouts across different devices.
 - Managing JavaScript interactions without affecting page performance.
-
